Cover Letter for Product Sale Proposal

Dear Client

Sales Assistant: Our Customer basement tells us "Sales Assistant" can be able to help a company to increase its Sales and evaluate the performance of their Sales Forces. A company can control and monitor its whole sales system through our system. Sales Generating reports and day to day performance evaluation with features like **GEO Attendance, Conveyance, Expense, Daily Activity, Tour Plan, Sales Order** and many more.

Digital Loyalty: Our 2nd Product is "Digital Loyalty". A company will give a Bar Code /QR Code on its product. By Scanning the Bar Code/QR Code customers will receive a point on the current purchase or an allotment of points that they can redeem points or use for future purchases as well as get money and other benefits against the redemption. **Through our system, a company can communicate with their Dealer, Mason, Contractor, Engineer easily and make them permanent buyers as well as able to keep the lifetime relationship.**

Marketing Assistant: Our 3rd product is "Marketing Assistant"/Project Management". Along with Marketing team monitoring a company can also able to learn about the market condition. By using marketing assistant/Project Management a company can learn about their **Product validity, Running project, Project Current Status, Project Follow Up, Future Advantages, Competitors, Customer review** etc.

Poultry Pro: Our 4th product is "Poultry Pro". It is a the combination of company, Dealer, sub-dealer, Salesforce, Doctor Farmer's hierarchy based system and output of poultry-based company solution from a single platform.

Tracker: Our 5th Product is "Tracker". It's a solution of all kinds of monitoring aspects with real-time **live location with Map, Path details, Time, Assigned Task** Update etc.

Sincerely,
User Assigned

About Us for Product Sale Proposal

Company Introduction

Etracker Solution is a mobile app development firm based in Dhaka, Bangladesh, which is run by a team of young and energetic professionals who have extensive knowledge and experience in the web and mobile app industry. We have worked with some international clients in Japan and the UK, and also have worked with many clients from Bangladesh. We have built up a vast amount of experience in a multitude of different markets, such as medical and healthcare, tourism and entertainment, manufacturing and distribution, government and educational, security and communications and the non-profit sectors. Etracker Solution is glad that it is one of the pioneering mobile application developers in Bangladesh to leave a mark in the mobile app market. After years of developing mobile apps for foreign clients, we at E-tracker Solution know how to design and deliver the right mobile solutions for your business and bring in revenue. E-tracker Solution will put you in front of your customers on devices they access most with information and tools that make it easy for you to connect with their mobile audience.

Our Background

We are specialized, Android, IOS and Windows Mobile application development that's why we create mobile apps from scratch that run on Android or iOS. Our team has an outstanding capability to understand a client requirement and implemented the requirement through the consecutive process of RND, UI/UX, flow, Prototype, pilot testing, test case, real-time workability and finally delivery of the product. We have shown our expertise in the critical Poultry Industry automation project as well as foreign company automation such as India, UK, Japan etc.

Today we are a successful business automation company in Bangladesh where we are the solution Partner Of Grameenphone. Not only that national and international Top-ranked companies such as ACI, GODREJ(India), SUGUNA(India), Amrit Global, BTAL, GETCO, Elite Paints rely on us and benefited through our system. Where the top-ranked company rely on us, so why not you?
